**DIVISION OF WATER RIGHTS**

DEE C. HANSEN  
STATE ENGINEER

JOHN BENE  
DEPUTY

P.O. BOX 506  
CEDAR CITY, UTAH 84720  
586 4231

GERALD W. STOKER  
AREA ENGINEER

Mr. Ferl Blackburn  
Glendale, Utah 84729

Dear Mr. Blackburn:

The matter concerning the construction of dams in Lydia's Canyon has again been brought to my attention. This situation has caused a great deal of concern for the parties involved locally and for representatives of the Division of Water Rights. We feel that sufficient time has been allowed for a mutual agreement to resolve the problem between yourself and Mr. and Mrs. Marion Cox but since it has not been concluded we must intervene and initiate civil action as a final solution to the problem.

The last report from our area office in Cedar City indicated that you have an agreement worked out with Roger Chamberlain to reconstruct the damaged pipeline and obstructed spring so that the aggrieved parties will receive their required water supply. Gerald Stoker, Area Engineer, believes that you and Mr. Chamberlain have had sufficient time to correct the problem and that further delay is not in the best interest of those water users at the Chamberlain Ranch.

You are hereby ordered by the State Engineer to complete the necessary repairs to the pipeline and to construct a collection system around the spring headhouse to enable the previous and decreed supply of water to flow into that system and satisfy the requirements described under said water right. We will allow you until the      day of November, 1978, to have these repairs and construction completed. If you fail to comply with these instructions the Attorney General's Office will be advised to enter a civil action against you in the matter.

If you have any questions regarding this order please contact my office at 231 E. 400 S., Salt Lake City, Utah or telephone 533-6071.

Yours truly,

Dee C. Hansen  
State Engineer
